

Hazardous/Toxic Waste Management (RCRA)

Reliable and effective training to ensure compliance with today's hazardous waste regulations:

- **Waste identification:** Learn the latest rules, reliefs, and exclusions for your materials
- **Shipping hazardous waste:** Ensure compliance with the EPA rules for completing the hazardous waste manifest
- **On-site management:** Learn the essential rules for accumulating and storing hazardous waste
- **Treatment & disposal:** Discover your options and learn what information must be communicated to your TSDF
- **Latest issues:** Feel confident that you know what regulatory changes are on the horizon

Attend day three and learn the latest rules for managing...

Industrial and Hazardous Waste in Texas

Targeted and focused training to ensure compliance:

- **Texas waste classification & coding:** Develop your competencies for classifying Class 1–3 industrial waste and applying Texas waste codes
- **Recordkeeping responsibilities:** Learn how to manage the TCEQ paperwork and reporting requirements
- **Manifest procedures:** Understand the rules for hazardous and industrial nonhazardous waste
- **Releases & spills:** Know when and how to report incidents to avoid fines and penalties
- **Latest actions:** Discover the implications of the new Federal solid waste rule revisions for Texas generators

Annual Training Is Required by Law...

...for "all persons who work at or oversee the operations of a hazardous waste facility."
[40 CFR 262.34(a) & 265.16 TAC 335.69(a)(4)]

Free Membership for One Full Year and More!

Compliance professionals must keep track of regulatory changes on a continuous basis, or they risk fines for non-compliance. Lion's Membership Services help you stay on top of the ever-changing regulatory landscape. Receive—

- Stay current with new state-specific "LionCasts," timely newsletters, and special e-bulletins
- Nationally recognized Certificate of Achievement and CEUs, plus ABIH and IHMM certification maintenance points
- User-friendly compliance references, checklists, and how-to-guides in print and searchable CD offer complete regulatory support when you need it

Train Online 24/7!

Expert Training—Any Time, Anywhere

2012 Certification Workshops

Two-Day Workshop on Federal Rules (RCRA)

Hazardous/Toxic Waste Management

Day 1: Coffee & Pastry, Registration 7:30–8:30 a.m. Program: 8:30 a.m.–4:30 p.m. **Day 2:** Coffee & Pastry, Discussion 7:30–8:00 a.m. Program: 8:00 a.m.–4:30 p.m. Networking Lunch: 12:00–1:00 p.m.

Understand RCRA Essentials

With EPA inspection on the rise, thorough training is more critical now than ever. This interactive, skill-building workshop is the most effective way to learn proven techniques for navigating and applying the RCRA hazardous waste rules. Using a variety of teaching techniques, real-world exercises, and examples, you will develop a new level of compliance expertise to ensure you are prepared back at your facility.

Annual Training Is Required by Law

Annual training and update training is required by law at 40 CFR 262.34(a) and 265.16. Training content is designed specifically for facility personnel who work or oversee the operations at a facility where hazardous waste is generated or managed. Others who will benefit from this workshop include:

- Individuals new to hazardous waste management compliance.
- Hazardous waste managers who need update training.
- TSDFs, contractors, corporate attorneys, waste brokers, and service providers who need to know how the rules work.

Find out who needs training at your site: www.Lion.com/RCRANow

Learn the Basics: FREE Online Prep Course!

Registration also includes the optional online RCRA 101 primer, **Hazardous Waste Regulations: General Awareness**.

Day Three Workshop on Texas Rules

Industrial and Hazardous Waste in Texas

Coffee & Pastry, Registration 7:30–8:00 a.m. Program: 8:00 a.m.–4:30 p.m. Networking Lunch: 12:00–1:00 p.m.

Targeted Training on Texas Mandates

Generators must ensure compliance with both the Federal and the more stringent State regulations. Violators face steep fines and penalties. Just last year the TCEQ conducted more than 111,000 routine investigations, issued over 13,000 Notices of Violation, and levied nearly \$11.5 million in fines and penalties against facilities in Texas.

Ensure your site is in compliance with today's Texas Industrial and Hazardous Waste Regulations at this one-day certification workshop. Designed to complement the Federal workshop, you'll learn the additional Texas regulatory mandates that apply to your operations.

Prerequisite: Current Federal RCRA Training

Upon successful completion of the workshop, students earn 0.7 CEUs, 1.17 ABIH CM points, and Lion's nationally recognized Certificate of Achievement. Save your workshop certificate as proof of training in case of government inspection or IHMM certification audit.

Workshop Highlights

- Regulatory structure: Learn how to navigate and correctly apply the regulations.
- EPA enforcement: Understand how to handle an inspection and avoid fines and penalties. **New!**
- Waste identification: Take away Lion's proven formula for determining what is a regulated hazardous waste.
- Recycling options: Discover how to use available Federal and State reliefs.
- On-site management: Learn how to implement EPA's storage rules for hazardous waste, universal wastes, and used oil.
- Shipping and disposal: Practice Lion's step-by-step process for meeting land disposal restrictions and preparing the manifest for off-site shipments.
- Stay current: Discover tips to monitor regulatory changes that may affect your operations and training requirements.

Upon successful completion of the workshop, students earn 1.4 CEUs, 2.34 ABIH CM points, and Lion's nationally recognized Certificate of Achievement. Save your workshop certificate as proof of training in case of government inspection or IHMM certification audit.

Lion's Spotlight Session: PCBs

At each workshop, our expert instructors shine the light on a topic of special interest. The inaugural Spotlight Session for 2012 focuses on PCBs. **New for 2012!**

- When are PCBs regulated?
- How are they regulated by the U.S. EPA and States?
- Management and disposal options.

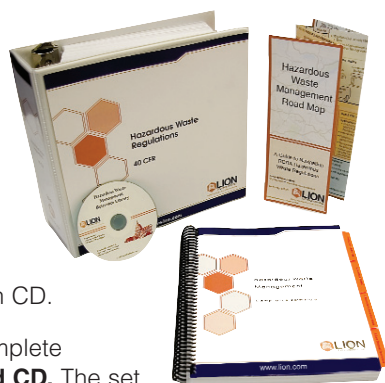

Compliance Tools, Updates, and Membership

Take Home Unsurpassed Reference Materials

At the Federal workshop, each student receives the complete **Hazardous/Toxic Waste Management Reference Set**. The set includes Lion's Hazardous Waste Regulations that are completely up to date, formatted with easy-to-read fonts, finding aids, *Federal Register* sources notes, and editor's notes. For additional help navigating the rules, students receive the RCRA Compliance Reference, the Hazardous Waste Management Road Map, plus the Hazardous Waste Reference Library on CD.

At the State workshop, each student receives the complete **Industrial and Hazardous Waste Reference Set and CD**. The set includes completely up-to-date TCEQ Hazardous and Industrial Waste Regulations (30 TAC), helpful compliance references, checklists, summaries, and other guidance documents.

Need extra copies? Purchase the set online at www.Lion.com/Lionbookstore.

FREE Membership for One Full Year

Each Student receives a year of Lion Membership, with exclusive access to highly targeted regulatory information and essential compliance resources. Membership benefits include:

- **Reg Updates** – Stay current with "LionCasts" audio regulatory briefs, topical e-newsletters, and timely e-bulletin alerts.
- **Book Updates** – Keep your Hazardous Waste Regulations (40 CFR & 30 TAC) current by downloading updates throughout the year.
- **Technical Help** – Search the online FAQs or submit your question to the "Finder Service."
- **Library Resources** – Key Federal, State, and international documents, rulemakings, and best practices are at your fingertips.
- **Training Records** – Access and print your Lion training history at any time.
- **Member Discounts** – Special offers and member-only pricing available on select Lion products.

Can't attend? Purchase a new membership for \$499/year or renew for \$199/year.
